

## Western Canada School Divisions Enlist StudentsAchieve™ to Enhance Division-Wide Assessments

*North East SD, Saskatchewan Rivers SD, Prince Albert RCSSD and Golden Hills SD all selected SRB's Learning Management and Student Assessment System, **StudentsAchieve™**, to enhance division-wide student assessment and performance.*

*August 9<sup>th</sup> 2011, Edmonton, Alberta, Canada* – SRB Education Solutions Inc. welcomes four new clients to its growing **StudentsAchieve™** user group. Saskatchewan Rivers SD & North East SD selected **StudentsAchieve** in fall of 2010 followed more recently by, Prince Albert RCSSD and Alberta's Golden Hills SD in June of 2011.

In February of 2011, **StudentsAchieve** hosted the Saskatchewan Assessment Forum (SAF) where school divisions from across the province came together to determine the key commonalities necessary for Assessment in the province. "The meeting provided divisions with key insights leading to new innovations. It also led to the development of new, fully customizable, assessment features," says Lyall Einhorn, Account Manager at StudentsAchieve. Now, **StudentsAchieve** allows a finer degree of Assessment granularity and provides teachers, parents, and students with more relevant and easy-to-access information than other outcomes-based Assessment software.

The better defined provincial Learning Management System requirements more easily enabled divisions such as Saskatchewan Rivers SD to identify their individual outcomes-based Assessment capture and analysis needs. Due to the distinctive ability to customize the software, **StudentsAchieve** does an impeccable job at supporting grading and reporting needs and requirements and has become a key component of meeting the school division's goals.

The Saskatchewan developments led Golden Hills SD in Alberta to consider **StudentsAchieve** for their Assessment needs. After performing their due diligence and executing an all-inclusive review of their options (including viewing presentations by an existing client in Alberta), Golden Hills SD also selected **StudentsAchieve** as their go forward solution. "**StudentsAchieve** is just what we were looking for. It is a comprehensive product that meets our assessment needs both at the classroom and system levels. **StudentsAchieve** supports the assessment work we are doing and will also help take us where we want to go. We've been searching for just the right product to move our work forward and we've found it." says Bevan Daverne, Superintendent of Schools at Golden Hills SD. Over the 2011/2012 school year, Golden Hills will work with a dedicated **StudentsAchieve** consultant to develop a deployment strategy to compliment their unique Assessment philosophy.

"**StudentsAchieve** is pleased to become the Learning Management and Student Assessment System of choice for North East SD, Saskatchewan Rivers SD, Prince Albert RCSSD and Golden Hills SD. We are excited about our growing client base in the provinces of Saskatchewan, Alberta and Manitoba and look forward to working with these divisions to help maximize the academic potential of their students, ultimately enriching the quality of student performance," says Bruce Young, Solutions Services Manager at **StudentsAchieve**.
